A state of the art facility which provides superior quality uniforms at direct factory prices.

PRODUCTION FLOW

After receiving the fabric from store, cutting department cut the fabric as per required quantity & design and make the batching.

CUTTING

Operators stitch the garments according to the batching numbers of cut pannels. A supervisor guide the operators to make an accurate garments.

STITCHING

Our embroidery and printing department do the customers branding as per customer's approved sample.

BRANDING

A quality control inspector always does the inline inspection of stitching operators to make sure that everything is being stitched as per customer's requirements.

QUALITY CONTROL

CUSTOMER SATISFACTION

FINISHING

Our finishing department checks the stitched garments to cut the loose threads and stitch the broken stitches before sending them to pressing department.

PRESSING

100% finished garments will be steam pressed in pressing department.

QUALITY ASSURANCE

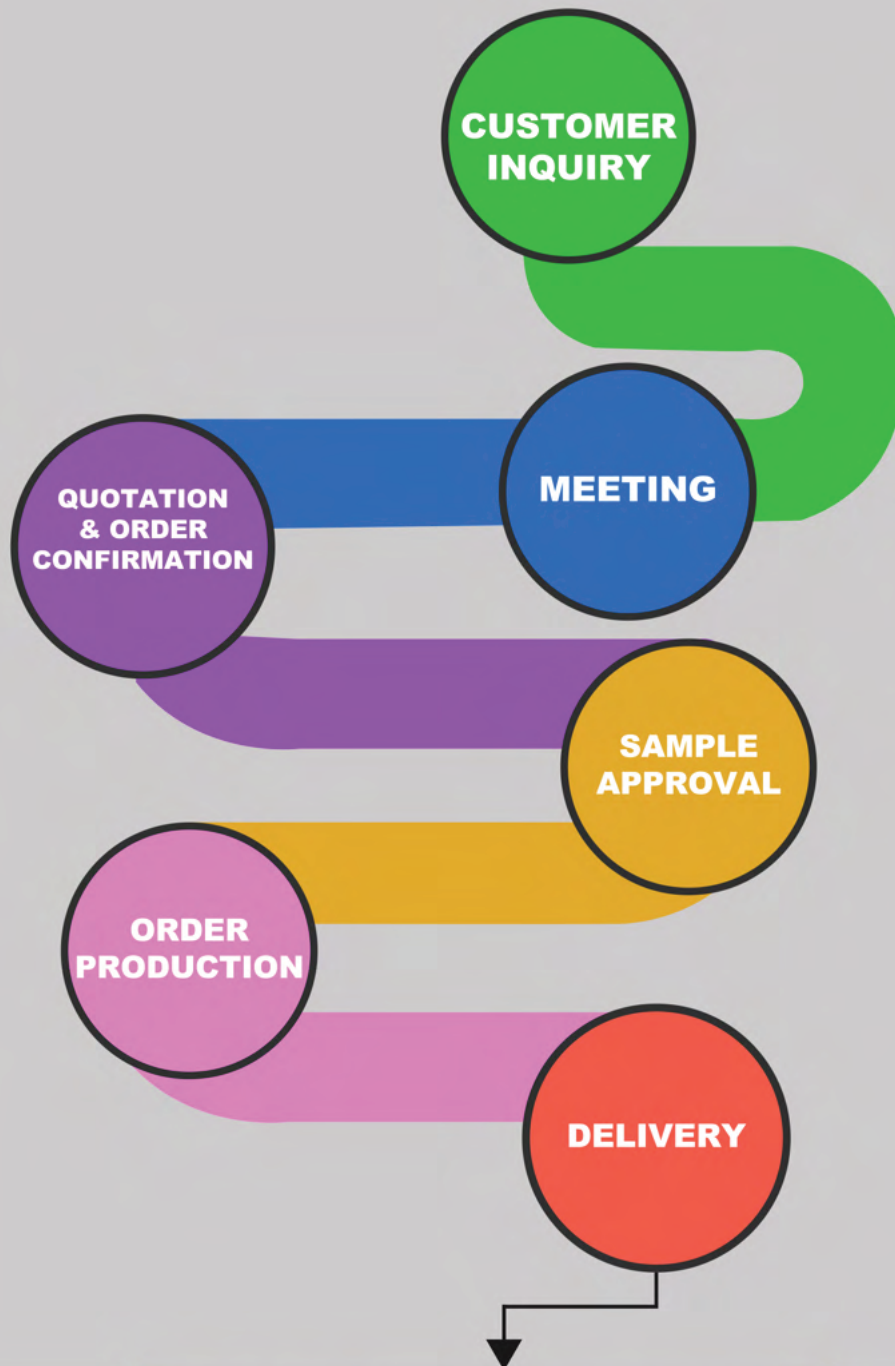

Once the 100% shipment gets ready, quality auditor conducts the inspection of the shipment according to the customer's approved sample.

PACKING & DESPATCH

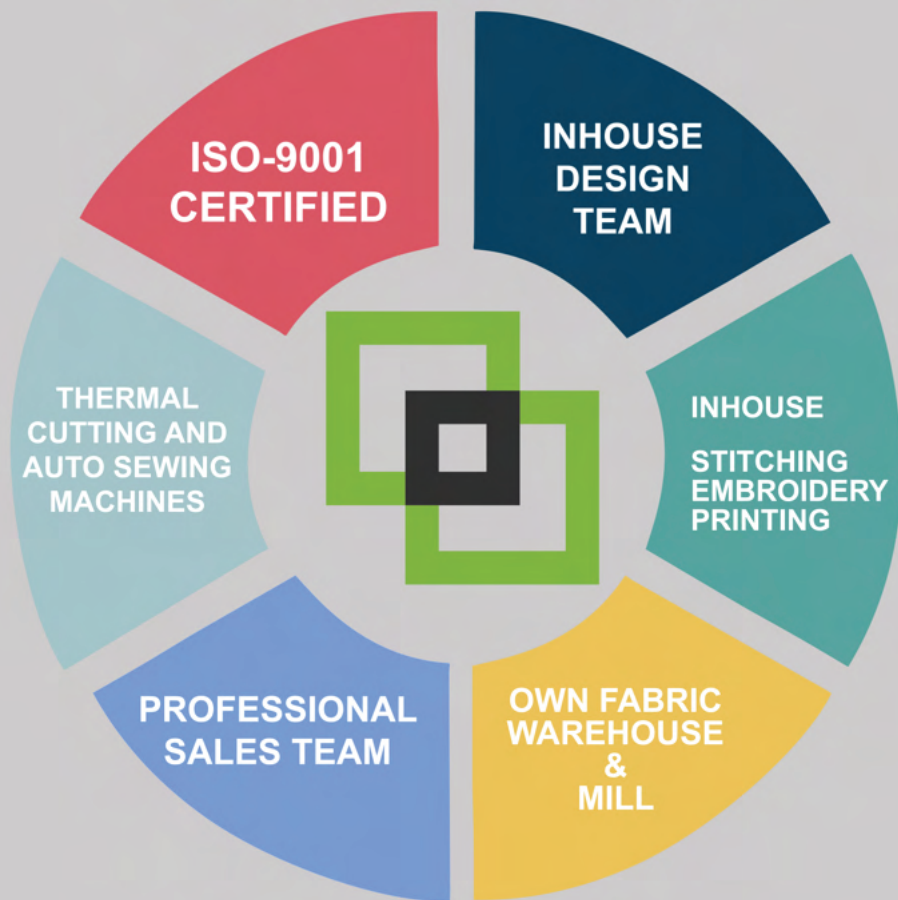

After the successful inspection of the shipment, it will be packed and despatched to the customer.
